The World's Most Trusted Windshield Protection Film

☑ Patented Scratch Coat

ClearPlex has industry-leading scratch and stain resistance to stand up to everyday wear and tear better than other windshield protection films.

☑ Superior Impact Protection

ClearPlex's polyurethane construction provides the industry's highest impact ratings.

☑ Premium Clarity

ClearPlex is the most optically clear windshield protection film available, meaning no distortion - you won't even know it is there!

☑ Rejects Over 99% of UV Rays

Protect your vehicle interiors and occupants against harmful UV rays.

☑ Maintains Vehicle Value

Safeguards original windshield, preserving OEM value and structural integrity.

☑ Avoids Expensive ADAS Repairs*

ADAS (Advanced Driver Assistance Systems) equipped windshields are expensive to replace and often require re-calibration with your car's computer systems. ClearPlex prevents expensive repair costs associated with ADAS-equipped windshields. Recalibration of sensors is not always covered by insurance when making a windshield claim. Consult your insurance carrier for details.

☑ Unmatched Longevity

ClearPlex lasts up to 2x longer and offers an 18-month warranty to not peel, bubble, yellow or crack.

**Average replacement cost of an ADAS equipped windshield according to a 2018 study by AAA (American Automobile Association) and does not include related body work.*

ClearPlex® BY MADICO

Windshield Protection Film

The Clear Choice for Windshield Protection

Protect Your Windshield From Road Hazards

From small rocks to road debris, unwanted objects that strike your glass can lead to costly damages and driving distractions.

What is Windshield Protection Film?

ClearPlex Windshield Protection Film absorbs the impact of common road hazards, significantly reducing the occurrence of rock chips, stars, pitting, and bull's-eyes – leaving the glass in pristine condition.

The ClearPlex Solution

ClearPlex by Madico is the world's first and best-performing windshield protection film, offering patented best-in-class features and benefits that significantly enhance the longevity of vehicle windshields. ClearPlex provides the most optically clear and effective windshield protection, ensuring a safer driving experience, while maintaining the integrity of vehicle glass and preventing high-cost repairs.

Who Should Use ClearPlex?

ClearPlex offers proactive protection for luxury and classic cars, EVs and vehicles equipped with ADAS (required on model years 2023 and newer), RVs, commercial vehicles, and fleets.

Clear Skies Ahead

How to Maintain Your ClearPlex Film

ClearPlex features a durable scratch-resistant coating, however, proper care should be taken to keep your film in good condition. Be sure to hand wash your vehicle and always use clean wipers. The use of a ceramic coating and/or sealant will enhance the film performance and extend the life of the film. Please refer to the ClearPlex Film Care Guide for full details.
