* Due to the high-tack nature of Protekt HD, Black and Matte adhesive, installers should not use isopropyl alcohol solution to help tack the film or seal edges.

** Time @ temperature for complete healing following 10 rounds of scrubbing with a brass wire brush.

Specification Use Statement

Reported values are typical properties and should not be used as a specification. Since the user is aware of the specific conditions in which the product is to be used, it is the user's responsibility to determine whether the product is suitable for intended use. If you need verification regarding specific use or additional information, please contact Madico or your local Madico Authorized Dealer.

Madico's Comprehensive PPF Program

Madico offers a comprehensive PPF program which includes films and a custom cutting system to help make every install fast, accurate and cost effective.

Product Solutions

Protekt Comes In 2 clear gloss options – HD & FlexPro. Available in Black and Matte for protection and restyling

Protective Cap Sheet Option

Protekt HD & FlexPro are available with or without a cap sheet for your convenience. A protective cap sheet can prevent damage during transit, ensuring that the film arrives in perfect condition. However, for fast moving film, the non-cap sheet option could offer faster applications. Black and Matte are only available with the cap sheet

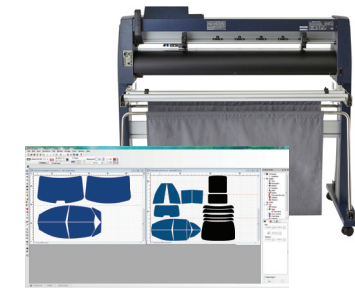

10-year manufacturer's warranty

Protekt PPF comes with a strong warranty providing peace of mind and assurance of quality.

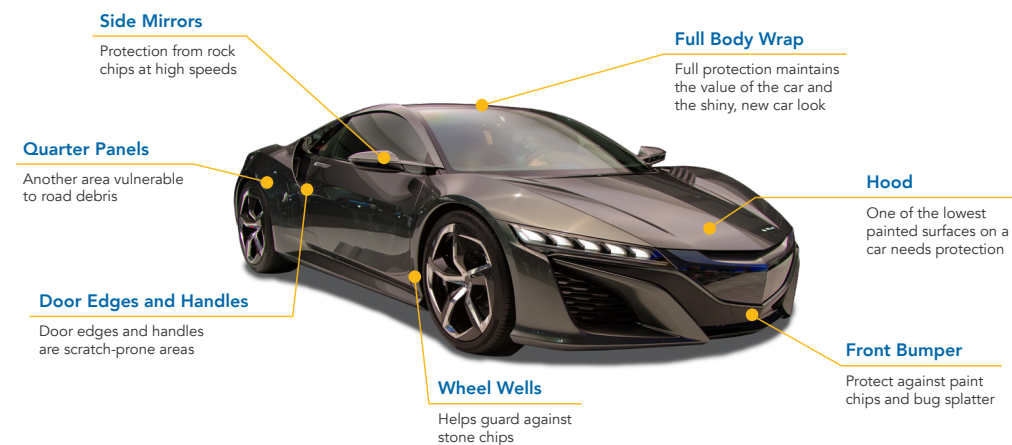

Cutting Software and Plotters - The Madico Advanced Cutting System (MACS)

MACS is a comprehensive plotter and design software that streamlines PPF installation by providing dealers with access to over 129k window film patterns and 57k paint protection film templates, enabling precise, efficient, and customizable cuts for various applications at a fraction of the cost of other plotter programs.

- Access 200k+ templates – includes 129k window film patterns and 57k PPF templates for fast, precise installs.
- Powered by MACS – Madico Advanced Cutting System offers intuitive plotter software built specifically for film professionals.
- Boost efficiency – eliminate hand-cutting with accurate, customizable cuts that reduce waste and save time.

Versatile Application - Suitable for various vehicle surfaces including full body wrap, hood, front bumper, wheel wells, door edges, handles, quarter panels, and side mirrors.

Manufactured by Madico

When you purchase Madico film, you can rest assured that you have selected a high quality and extensively tested product. Headquartered in the Tampa Bay region of Florida, Madico manufactures and distributes high performance window films for automotive, architectural, and safety and security applications through company-owned distribution centers in North America as well as an extensive international distribution network.
